Pacific Gas and Electric Company; Notice of Availability of Draft Environmental Assessment

July 29, 1996.

A draft environmental assessment (DEA) is available for public review. The DEA was prepared in support of dam safety repairs to be made pursuant to 18 CFR 12.4 at the Upper North Fork Feather River Project. The work will be conducted to improve the seismic stability of the project's Butt Valley and Canyon Dams. The DEA finds that work would not constitute a major federal action significantly affecting the quality of the human environment. The Upper North Fork Feather River Project is located on Butt Creek and the North Fork Feather River in Plumas County, California.

The DEA was written by staff in the Office of Hydropower Licensing, Federal Energy Regulatory Commission. Copies of the DEA can be viewed at the Commission's Reference and Information Center, Room 2A, 888 First Street, NE., Washington, DC 20426. Copies can also be obtained by calling the project manager listed below.

Please submit any comments within 14 days from the date of this notice. Any comments, conclusions, or recommendations that draw upon studies, reports or other working papers of substance should be supported by appropriate documentation.

Comments should be addressed to Lois D. Cashell, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. Please affix Project No. 2105-037 & -038 to all comments. For further information, please contact the project

manager, John Mudre, at (202) 219-1208.

Lois D. Cashell,
Secretary.
